

Data management of FÉMALK Co

Introduction

FÉMALK Co (hereinafter the Data Controller) is an automotive company operating in Budapest (Csepel plant), Pest county (Dunavarsány plant) and Borsod-Abaúj-Zemplén county (Erdőhorváti plant). The main activity of the Data Controller is the production of aluminium die casting primarily for the automotive industry as well as the surface treatment, machining and various assembly operations of these products.

General data management information

The Data Controller operates a website on which the data displayed is in accordance with the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council (Apr 27, 2016) (GDPR) on the protection of natural persons with regard to the processing of personal data and the free flow of such data and adheres to the basic principles established by the GDPR, which ensure fair and legal data management for those concerned. The data subjects can learn about the data management on the Data Controller's website, its exact content and their options for exercising their rights from this Information leaflet.

The data management related to the website has been included in a spreadsheet by the Data Controller for easier transparency and comprehensibility.

Scope of this information

Personal scope: The personal scope of this Information leaflet covers all persons whose personal data is processed by the Data Controller, those who fill out a form on the website, enter personal data and upload a resume.

Scope in time: This information leaflet is valid indefinitely from 1st June 2026.

Material scope: The material scope of this Information leaflet covers all data that the Data Controller manages in some form based on the consent of the data subject.

Data security

We operate our information security system in accordance with TISAX requirements and strive to implement technical and organizational measures that protect data from destruction, data loss, damage, disclosure or unauthorized access.

With these measures we can reduce the probability and severity of constantly arising risks which provide adequate protection for the protection of the data of FÉMALK Co's employees, job applicants and customers.
